

1.2 Classwork: Arithmetic Sequences

1. Consider the sequence

7, 11, 15, 19, ...

- (a) Write down the value of u_1 , the first term.
- (b) State whether the sequence is arithmetic. Give a reason for your answer.
- (c) Write down the value of the common difference d .
- (d) Write down the next two terms of the sequence.
- (e) Find an expression for u_n , the n^{th} term.
- (f) Find u_{50} .
